Welcome to Rasa! 🤖

To get started quickly, an initial project will be created.
If you need some help, check out the documentation at https://rasa.com/docs/rasa.
Now let's start! 🗨️

? Please enter a path where the project will be created [default: current directory]
Created project directory at 'C:\Users\Thirs\OneDrive\Desktop\project'.
Finished creating project structure.
? Do you want to train an initial model? 👍 Yes
Training an initial model...
2023-04-04 21:36:05 INFO      numexpr.utils - Note: NumExpr detected 12 cores but "NUMEXPR_MAX_THREADS" not set, so enforcing safe limit of 8.
2023-04-04 21:36:05 INFO      numexpr.utils - NumExpr defaulting to 8 threads.
The configuration for policies and pipeline was chosen automatically. It was written into the config file at 'config.yml'.
